## Hexagonal Class A - Light Duty Poles

## Hexagonal, Class A - Light Duty Poles

Physical Details:

- Hexagonal symmetrically tapered shaft.
- 4.0" flat to flat pole tip.
- 0.19" per linear ft. taper increase.
- 600 lb . transverse bending strength (2 ft. from tip).
- Mold finish is standard but optional etched or polished finish and Decor colors are available.
- For various luminaire mounting details, please reference arms and accessories.

## Direct Embedment

| Pole <br> Catalog <br> Number | Pole <br> Height Above <br> Grade | Assumed <br> Embedment <br> Depth* | Overall <br> Pole <br> Length | Pole Butt <br> Flat to Flat <br> (Inches) | Ultimate Ground- <br> Line Moment <br> (ft. Ibs.**) | Nominal <br> Weight <br> (Ibs.) |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| E-150-APH-G | $11^{\prime \prime} 0^{\prime \prime}$ | $4^{\prime} 0^{\prime \prime}$ | $15^{\prime} 0^{\prime \prime}$ | 6.85 | 5400 | 400 |
| E-175-APH-G | $13^{\prime} 6^{\prime \prime}$ | $4^{\prime} 0^{\prime \prime}$ | $17^{\prime} 6^{\prime \prime}$ | 7.33 | 6600 | 495 |

| E-225-APH-G | $18^{\prime \prime} 6^{\prime \prime}$ | $4^{\prime} 0^{\prime \prime}$ | $22^{\prime} 6^{\prime \prime}$ | 8.28 | 9900 | 720 |
| E-250-APH-G | $20^{\prime} 0^{\prime \prime}$ | $5^{\prime} 0^{\prime \prime}$ | $25^{\prime} 0^{\prime \prime}$ | 8.75 | 10800 | 915 |
| E-275-APH-G | $22^{\prime} 6^{\prime \prime}$ | $5^{\prime} 0^{\prime \prime}$ | $27^{\prime} 6^{\prime \prime}$ | 9.23 | 12300 | 1065 |
| E-295-APH-G | $24^{\prime} 6^{\prime \prime}$ | $5^{\prime} 0^{\prime \prime}$ | $29^{\prime} 6^{\prime \prime}$ | 9.60 | 13500 | 1195 |

## Base Plate

| Pole Catalog Number | Pole Height Above Grade | Pole Butt Flat to Flat (Inches) | Base Plate Size (Inches) | Bolt Circle*** (Inches) | Ultimate GroundLine Moment (ft. Ibs. ${ }^{* *}$ ) | Nominal Weight (llbs.) |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| P-100-APH-G | $10^{\prime} 0^{\prime \prime}$ | 5.90 | $11.5 \times 11.5$ | 11.5 | 4800 | 270 |
| P-125-APH-G | $12^{\prime \prime} \mathrm{b}^{\prime \prime}$ | 8.38 | $11.5 \times 11.5$ | 11.5 | 6300 | 340 |
| P-150-APH-G | $15^{\prime} 0$ | 6.85 | $11.5 \times 11.5$ | 11.5 | 7800 | 435 |
| P-175-APH-G | 17' 6" | 7.33 | $11.5 \times 11.5$ | 11.5 | 9300 | 540 |
| P-200-APH-G | $20^{\prime \prime} 0^{\prime \prime}$ | 7.80 | $11.5 \times 11.5$ | 11.5 | 10800 | 650 |
| P-225-APII-G | $22^{\prime \prime}{ }^{\prime \prime}$ | 8.28 | $14.5 \times 14.5$ | 17 | 12300 | 800 |
| P-250-APH-G | 25'0' | 8.75 | $14.5 \times 14.5$ | 17 | 13800 | 995 |
| P-275-APH-G | $27^{\prime \prime}{ }^{\prime \prime}$ | 9.23 | $14.5 \times 14.5$ | 17 | 15300 | 1145 |
| P-295-APH-G | $29^{\prime \prime} 6^{\prime \prime}$ | 9.60 | $11.5 \times 11.5$ | 17 | 16500 | 1275 |

* Recommended burial depth for normal soils. Where large imbalanced loads are applied or strengths are questionable, deeper burial may be necessary.
** Illtimate Ground Line Moment = Height above grade minus $2 \mathrm{ft} x$ transverse.

Decor Colors \& Finishes

| Color | Eclipse <br> (Black) | Ash <br> White | Pearl <br> Gray | Dusty <br> Rose | Aztec <br> Jade <br> (Green) | Desert <br> Sand <br> (Buti) | Saluki <br> Bronze <br> (Brown) |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Etched <br> Finish | E11 | E35 | E40 | E41 | E51 | E70 | E90 |
| Polished <br> Finish | S11 | S35 | S40 | S41 | S51 | S70 | S90 |

Mold finish, catalog \#M00, is standard on all poles. Decor colors and finishes must be specified. A clear acrylic coating is standard on all Decor poles.

4 When selecting a pole strength class, care must be taken to ensure it will carry the desired EPA loading of arm and lumiraire for the wind conditions at your location. If you are unsure of your location's wind condition, please reference Isotach Map in Goncral and Tochnical soction.

## Streetlighting Arms and Accessories

Spun concrete poles can be adapted to fit most arms or accessories. Our standards are detailed in the "Arms and Accessories" section of this catalog, If a specific item is not shown, please call your local representative or our sales office.

When requesting StressCrete to supply arms, please ensure compatability with Iuminaire.

## Finishes

Mold finish is standard on all poles. If a Decor or custom finish is desired it must be specified in the pole catalog number. Please see lower right front page for information, or turn to Decor section.

## Standard Openings and Handholes

(For more detailed information, please reference General and Technical section.)

- $21 / 2^{\prime \prime} \times 8^{\prime \prime}$ is the standard hanchole box located $18^{\prime \prime}$ above grade. Both it and the tight fitting coverplate are available in a rugged high density cast zinc.
- Standard coverplate fasteners are 1/4" stainless steel with either Allen (hex) head for the United States or black Robertson \#3 (square) head in Canada. Tamperproof and non-standard fasteners are available but must be specified.
- Standard above grade wiring apertures vary with arm selection but are generally $11 / 4^{\prime \prime}$ diameter holes or $11 / 2^{\prime \prime} \times 3^{\prime \prime}$ openings. Below grade apertures are $21 / 2^{\prime \prime} \times 5^{\prime \prime}$ double openings $18^{\prime \prime}$ below grade in line with handhole.
- Non-standard sizes can be made available on request; please contact our sales office.
- Galvanized steel or zinc inserts are available in $1 / 8^{\prime \prime}$ increments from $1 / 4^{\prime \prime}$ through $3 / 4^{\prime \prime}$.
- Through holes are nominal $1 / 2^{\prime \prime}, 3 / 4^{\prime \prime}$, or 1 ".

## Electrical Grounding

The last letter of our pole catalog number "G" specifies that the pole will be supplied complete with a \#6 stranded copper ground wire. When properly connected, this will electrically ground the pole. If the pole is not to be electrically grounded, simply delete the letter " $G$ " from the catalog number.

## Footings

Typical Catalog Numbers

[^0]StressCrete

[^0]:    Typical for all types:

    1. Select footing type - direct embedment or base plate.
    2. Select pole length - if direct embedded allow for embedment length.
    3. Select shape and strength of pole.

    4, If required, select provision for electrical grounding of pole,
    5. If desired, select Decor color and finish.
    6. Select luminaire mounting style - see arms and accessories.
