

HOUSE SIDE SHIELDS

LOW PROFILE P4 OPTICAL ENGINE SHIELD

Low profile house side shield designed for our P4 optical system offering a discreet shielding option to control lighting.

LOW PROFILE SHIELD (LPS)

- Suitable for P4 engine with no lens, plus sag, shallow or deep dish lens
- Factory installed house side lighting control
- Field Installable
- Shield coverage of 150°
- Virtually invisible to the eye; eliminating the need of a large unsightly reflector
